DETAILED ACTION

Allowable Subject Matter

1. *Claims 45-74 are allowed.*

The following is an examiner's statement of reasons for allowance:

- a. Regarding claim 45, the combination of Moore (U.S 6,850,744) and Otting (U.S. 6,771,960) discloses all the claimed limitations except the instant claimed limitations;

“a controller operative to obtain a second list of radio frequency channels from the first list to initiate selection of the new serving cell, wherein if the number of radio frequency channels in the second list exceeds one, the radio frequency channels in the second list are processed in parallel such that the controller directs the receiver unit to acquire each of the frequency channels in the second list for decoding at a scheduled time for determining as a candidate for the channel of the new serving cell ”.

The above instance claimed limitations in combination with all the cited claimed limitations of claim 45 are neither taught, suggested nor made obvious by the combination of Moore (U.S 6,850,744) and Otting (U.S. 6,771,960).

- b. Regarding claim 50, the combination of Moore (U.S 6,850,744) and Otting (U.S. 6,771,960) discloses all the claimed limitations except the instant claimed limitations;

“providing a second list of radio frequency channels from the first list to initiate selection of the new serving cell; and processing the radio frequency channels in the second list in parallel if the number of radio frequency channels in the second list exceeds one, via acquiring each of the frequency channels in the second list for decoding at a scheduled time for determining as a candidate for the channel of the new serving cell”.

The above instance claimed limitations in combination with all the cited claimed limitations of claim 50 are neither taught, suggested nor made obvious by the combination of Moore (U.S 6,850,744) and Otting (U.S. 6,771,960).

c. Regarding claim 60, the combination of Moore (U.S 6,850,744) and Otting (U.S. 6,771,960) discloses all the claimed limitations except the instant claimed limitations;

“means for providing a second list of radio frequency channels from the first list to initiate selection of the new serving cell; and means for parallel processing the radio frequency channels in the second list if the number of radio frequency channels in the second list exceeds one, via acquiring each of the frequency channels in the second list for decoding at a scheduled time for determining as a candidate for the channel of the new serving cell”.

The above instance claimed limitations in combination with all the cited claimed limitations of claim 60 are neither taught, suggested nor made obvious by the combination of Moore (U.S 6,850,744) and Otting (U.S. 6,771,960).

d. Regarding claim 70, the combination of Moore (U.S. 6,850,744) and Otting (U.S. 6,771,960) discloses all the claimed limitations except the instant claimed limitations;

“providing a second list of radio frequency channels from the first list to initiate selection of the new serving cell; and processing the radio frequency channels in the second list in parallel if the number of radio frequency channels in the second list exceeds one, via acquiring each of the frequency channels in the second list for decoding at a scheduled time for determining as a candidate for the channel of the new serving cell”.

The above instance claimed limitations in combination with all the cited claimed limitations of claim 70 are neither taught, suggested nor made obvious by the combination of Moore (U.S. 6,850,744) and Otting (U.S. 6,771,960).

e. Dependent claims 46-49, 51-59 and 71-74 are allowed for the same reason above.

2. *The IDS submitted on 0712/2008 has been considered and made of record.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
